  Internship (Full-time) — June 2021 - Sep 2021
- **Train Media - Marketing Company** — Hybrid
  Junior Full-Stack Developer (Full-time) — Oct - Jan 2022

PROJECTS

- **My responsibilities when I was working at the Merv Dis Tic**: Merv Dis. Tic. is an eCommerce company in Turkey and they have their own platform. When I was working at that company I was working with the maintenance team. As it is my first job experience, generally I was learning the tools they use and tracking the process.

- **Responsibilities at the Train Media**: Train Media is a Marketing Company in Turkiye. When I was working at TrainMedia I took a part in developing teams. The company is developing websites and marketing strategies for local businesses. And at that company, I had a chance took a part in a big project like eCommerce websites to develop and to see the processes.

- **Freelance Works**: At beginning of 2022, I came to Poland and started to work freelance. At that time, I made 3 websites for local businesses in Poland/Katowice. One of them is a Restaurant named Wolo Kebab and you can take a look at their website(wolokebab.pl). Then, I made a website for a Marketing Company called WholeDigital.

- **During at that time, I got courses from Harvard, and Coursera online to develop my Algorithmic thinking and Designing skills.**:

ACHIEVEMENTS AND INTERESTS

- **Interests**: I am a Self-Taught Full Stack Developer with certificates in software engineering as same as a university degree. As a self-taught developer, I believe that a strong desire and perseverance made me a professional web developer. In my opinion, 3 important keys to success in a workplace are TEAMWORK, CURIOSITY, and BEING OPEN TO CHALLENGES. Along with these, I can say that I am a good researcher and at At the same time, I am a good student.
- My main focus these days is building responsive, accessible, and robust user interfaces using React.js, Next.js, and TypeScript. However, I am still exploring other technologies and frameworks that catch my interest.
- Also, I am open to all new ideas and new things. If you have different ideas and suggestions, I am kindly asking you to share your suggestions and ideas with me. Please contact me for a detailed discussion and exchange of ideas.
